DEVELOPER OF
DIGITAL PRINTING
EQUIPMENT

NOVI

NOVI

Specializes in digital printing equipment ,
consumables set of research and development,
manufacturing, sales, after-sales service in one
of the science and technology enterprises.

Our goal is to provide the most professional technical support for our customers

Professional after-sales team can provide customers
with timely and effective service,
solve all after-sales problems for customers in the
shortest time.

ENTERPRISE INTRODUCTION

Foshan Nuowei Digital Printing Equipment Co., Ltd. is located in Guangdong Province, Guangzhou City, Nansha District, Dagang Town, Haogang Avenue 28, is a professional engaged in digital printing equipment, consumables set of research and development, manufacturing, sales, after-sales service in one of the science and technology enterprises.

The company is committed to the development of digital direct printing machines, T-shirt printers, shaking powder machine and other equipment. Applied to T-shirt printing, sweater printing, pillow, denim print, bags and leather goods, home textile and clothing, towel textile, shoes, canvas bags, group clothing customization, personalized customization and other related fields.

The company has a professional technology research and development team, advanced production technology and modern management, to provide customers with innovative textile digital printing solutions. High-tech scientific research as the basis, market demand as a guide, "the development of strategic policy, market-oriented, quality of survival, management and efficiency, good faith as the basis of the enterprise, "quality assurance, customer first, innovation and development," the operating policy, through sustained innovation and pioneering. Through continuous innovation, we have mastered the core technology of high-end precision to provide our customers with first-class products and excellent service.

We believe that through the continuous efforts and pursuit of Foshan Nuowei Printing Equipment Co., Ltd. will be able to achieve mutual benefit and win-win situation with customers!

SPECIALITY TEAM

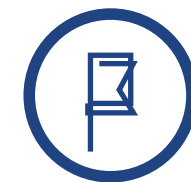

✦ Committed to building a leading brand in the printing industry

With ample experience
16 years in the digital printing
industry

Specialized segmentation
Specialized professionals
make for greater expertise.

Morale sky-high
Partnership - Flat Management
- Strong Execution

UNIQUE ADVANTAGES

Teams

16 years of research and development experience, combined with CSC REI technology is committed to professional digital printing equipment equipment solutions.

Offerings

Productivity Selected Structures
-Digital R&D Thinking 10+ million
invested in new product R&D
each year

CHOOSE US

Sheet metal processing workshop
Covering an area of 1200 square meters

4 laser cutting machines
6 bending machines
Sanding, welding, painting
One-piece shop and other equipment

Machining shop covers an area of
1500m²
10 CNC machining centers

4 CNC lathes
2 ordinary lathes
2 ordinary drilling and milling machines
1 precision grinder

Covers an area of about 23,000
square meters
5 large production workshops

T-SHIRT PRINTER

Print Head Configuration: KS1680H

Quantity: 2

Printing Accuracy: 1200×1200dpi, 1200×1800dpi

Printing Speed: 40 seconds/A3 size drawing

Graphic Format: Tiff/Jpg/Eps/Ai/Ps/Png/Cdr/Pdf

Machine Dimensions/Weight: 1250mm×1225mm×815mm / ≈145KG

Product Features.

High-spray printhead, high speed and high precision

White ink automatic recycling device

Intelligent ink shortage alarm

White and color at the same time

Standard printing platform: 372×420mm/255×305mm

Integrated frame, durable and beautiful

No need for plate making Suitable for cotton material

Low cost and high stability

NV-DTF-40

WHITE INK STAMPING PRINTER

Print head configuration: EPSONI1600A1

Number of printheads: 2

Printing range: 420mm × 100000mm

Printing speed: 720 × 900dpi (6pass 7m²/h)

720 × 1200dpi (8pass 5m²/h)

720 × 1800dpi (12pass 3m²/h)

Printing mode: CMYK+W

Machine size / Weight: 2033mm×999mm×961mm / 202KG

Product Features.

Automatic ink supply system

Automatic adsorption and rotation device

Automatic circulating powder feeding system

Automatic rewinding device

White and color at the same time

Intelligent control system in English and Chinese
easy to understand the operation

Wide range of applications, unlimited fabrics

Fume Filter

Flow rate: 330m³/h

Power: 215W

Noise: 64db

Voltage: 220V

Negative pressure: 350Pa

Internal inlet/outlet air interface: $\varnothing 59\text{mm}$

Filtration effect: up to 90% of 0.5 μm

Machine dimensions/weight: 830×445×420mm / 32KG

Product Features.

Electrolytic Smoke Removal No Filter

Simple structure, easy to use, firm fixing, high safety

Indoor purification No need for external exhaust

Support-free Vientiane Positioning Tube

One button start at power on Simple operation

Low energy consumption High suction power Stable performance

After using the purifier, the defective rate of the prints decreased by 89%

Solve the problem of the oil and smoke adhering to the pattern
